

NIRMAL RANPARIYA

REACT NATIVE DEVELOPER

Surat, Gujarat | nirmaltech.dev@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

I'm a React Native Developer with around 2 years of hands-on experience building cross-platform mobile apps. I enjoy creating smooth, high-performance applications with a strong focus on clean UI and user experience. I've worked with state management, API integrations, and optimizing app performance for both Android and iOS.

Along with React Native, I also have some working experience with React.js, Next.js, and Node.js, which helps me understand the full flow of modern app development. I'm always looking to improve my skills and build scalable, real-world applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java (Android), Swift (basic iOS)

Mobile Development: React Native, Expo, Redux, Redux Saga, Native Modules (Java/Swift)

Backend & APIs: REST API integration, basic backend understanding (Node.js), messaging with RabbitMQ

Databases: PostgreSQL, Firebase Firestore, MySQL, MongoDB

Realtime & Communication: Firebase Cloud Messaging (FCM), Socket.IO

Other: App Store & Play Store deployment, OTA updates (Expo), push notifications, deep linking

PROFESSIONAL EXPERIENCE

Ofniinfo Software Solutions Pvt. Ltd. — React Native Developer

Surat, India

June 2024 – Present

- Developing and maintaining cross-platform mobile applications using React Native and TypeScript
- Integrating RESTful APIs and Firebase services, including Authentication, Firestore, and FCM
- Implementing scalable navigation using React Navigation and managing application state with Redux Saga
- Collaborating closely with UI/UX designers to build responsive, user-friendly, and high-performance interfaces
- Working with native modules and platform-specific code (Java/Swift) to implement device features such as camera, push notifications, and permissions
- Participating in app deployment processes for both Google Play Store and Apple App Store

TECHNICAL PROJECTS EXPERIENCE

OPIGO

[Play Store](#) | [App Store](#)

Overview:

OpiGo is a social trading platform based in Mumbai that enables users to share market opinions, create polls, and engage with stock market insights. It also features a Decks system, allowing users to subscribe to curated investment strategies and receive stock recommendations from SEBI-registered experts.

Key Contributions & Features:

- Built and enhanced cross-platform mobile features using React Native
 - Developed interactive social trading features such as opinion sharing and polling
 - Implemented the Decks subscription system for short-term and long-term investment strategies
 - Integrated real-time updates and notifications, including delivery via WhatsApp and in-app channels
 - Ensured seamless feature rollouts using over-the-air (OTA) updates with Microsoft CodePush
 - Collaborated on web support for Decks to maintain consistency across mobile and web platforms
-

by.U Telecom App

[Web](#) | [Play Store](#) | [App Store](#)

Overview:

by.U is Indonesia's first all-digital telecom service, operated by Telkomsel, designed for a fully app-based user experience. It allows users to create and manage personalized mobile plans, offering a flexible and transparent approach to data usage without traditional telecom limitations.

Key Contributions & Features:

- Developed and maintained user-facing features for a fully digital telecom experience using React Native
- Built customizable plan flows allowing users to select base data and add-ons ("toppings") for apps like YouTube and Spotify
- Implemented seamless onboarding, SIM ordering, number selection, and in-app plan management
- Integrated real-time data usage tracking, recharge flows, and push notifications
- Ensured smooth performance and responsiveness across Android and iOS platforms
- Worked on improving user experience with a clean, intuitive, and Gen Z-focused UI
- Supported OTA updates and app releases for continuous feature delivery

SELA

Status: Developed (Not yet published on stores)

Overview:

SELA is a mobile-first classified marketplace application, similar to OLX, designed to enable users to buy, sell, and trade products locally. The app focuses on providing a smooth, intuitive experience for creating listings, discovering nearby items, and communicating with buyers and sellers in real time.

Key Contributions & Features:

- Developed core marketplace features using React Native for a seamless cross-platform experience
 - Built product listing functionality with image uploads, pricing, descriptions, and category management
 - Implemented real-time in-app chat for direct communication between buyers and sellers
 - Enabled location-based discovery using GPS to surface nearby listings
 - Optimized app performance using lazy loading, image caching, and efficient data querying
 - Focused on delivering a clean, responsive UI for better user engagement and usability
-

Collective Ledger OS (Portfolio Platform)

[Web](#)

Overview:

Collective is a modern web-based portfolio and project showcase platform designed to present development work, skills, and services in a clean and professional manner. It focuses on delivering a smooth user experience with responsive design and fast performance, making it ideal for personal branding and showcasing real-world projects.

Key Contributions & Features:

- Designed and developed a responsive portfolio website using modern web technologies
- Showcased projects, technical skills, and professional experience in a structured and visually appealing layout
- Implemented smooth navigation and optimized UI for better user engagement
- Focused on performance optimization and fast loading using modern deployment practices
- Deployed the application using Vercel for seamless hosting and scalability
- Ensured cross-device compatibility with a mobile-first approach

EDUCATION

BSc IT (Computer Science)

Saurashtra University - Rajkot

Start Year - 2022

HSC - Higher Secondary School

Delta Science School - Upleta

May - 2021

SSC - Secondary School

Krishna School - Upleta

March - 2019

LANGUAGE

- English: Intermediate
- Hindi: Fluent
- Gujarati: Fluent
